PROFESSIONAL SUMMARY

Mid-level Full Stack Developer with 4 years of professional experience designing, building, and deploying scalable web applications. Proficient in Next.js 15, NestJS, TypeScript, Node.js, React.js, MySQL, and REST API development. Delivered 14 production projects for real clients across Egypt, Palestine, Jordan, Saudi Arabia, and the United Kingdom, including e-commerce platforms, healthcare management systems, school administration software, and SaaS dashboards. Strong background in full-cycle development: requirements gathering, system architecture, frontend and backend implementation, deployment, SEO optimisation, and post-launch support. Available for remote full-time or contract roles.

WORK EXPERIENCE

Full Stack Developer

77 Group | Remote | Palestine

June 2023 - Present

- Developed and maintained a full-featured Restaurant Menu and POS system using Next.js 15, NestJS, MySQL, handling real-time orders across multiple restaurant branches.
- Built the Alfares School Administration Platform, a cloud-based system currently serving over 200 public schools in Palestine.
- Delivered a Doctor Appointment and Patient Records system with role-based authentication, admin dashboard, and secure data management.
- Collaborated with UI/UX designers and cross-functional teams; led code reviews and ensured performance, security, and scalability.
- Managed troubleshooting, debugging, and feature upgrades across 3+ live production applications.
- Stack: Next.js, NestJS, TypeScript, MySQL, Node.js, REST APIs, Git, SCSS, Tailwind CSS.

Back End Developer

Nexr Team | Remote | Jordan

December 2024 - Present

- Designed and implemented RESTful APIs using NestJS and TypeScript to support front-end functionality and improve application efficiency.
- Built and managed JWT-based user authentication and role-based access control (RBAC) to ensure data security.
- Collaborated with front-end developers to integrate server-side logic with client-facing components.
- Stack: NestJS, TypeScript, Node.js, PostgreSQL, REST APIs, JWT.

Freelance Full Stack Developer

Self-Employed | Remote | International Clients

2023 - Present

- Delivered 8+ freelance projects for clients across Egypt, Saudi Arabia, Jordan, and the United Kingdom.
- Dr Cosmo (drcosmo.net): Full-stack cosmetic e-commerce platform. Next.js 15 + NestJS + MySQL. Egypt.
